

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Monday - 10 October 1960

25X1 1. [] [] advised that Senator Kuchel had talked with the Director on 8 October requesting a copy of his VFW speech. The Director suggested a visit with Kuchel to discuss his recent trip but in view of Kuchel's departure for California, the Director stated he would have his people there contact Senator Kuchel. I have arranged with Mr. Ashcraft for his people to contact Senator Kuchel and furnished him with some State Department cables on the trip. Also I asked Mr. Ashcraft to have his people inquire about Kuchel's proposed trip to the Trust Territories after the election. 25X1A

25X1 2. [] Jay Sourwine, Senate Internal Security Subcommittee, telephoned to inquire if we had any interest in a 25X1X [] who apparently had some views published in THE NEWS on 8 October. Sourwine stated they were contemplating utilizing him as a witness before the Subcommittee.

25X1X This was checked out with [] WH Division, who stated the Division had no objection if the Subcommittee wished to talk with [] 25X1A [] added that we had been in touch with [] 25X1A and tended to regard him as shifty and looking out for his own interests. [] added [] had nothing to offer. We will merely advise Sourwine that the Agency has no objections if the Subcommittee wishes 25X1X to utilize []

25X1 3. [] Talked at some length with Mr. Nittle of the House Committee on Un-American Activities on various possibilities for legislation in the security field indicating to him some of the problems we had and also the complexity of attempting new legislation. Apparently this is a completely new field to Nittle and he was most appreciative of the information. He is seriously considering a legislative proposal to require employees of security or intelligence organizations to receive approval for foreign travel and possibly he would apply this to former employees for a period of one or two years after employment. While not objecting to his proposals, I pointed out a number of problems which we saw in such legislation.
